

How to Port a Number

Porting = Transfer

WHAT IS PORTING?

Porting your phone number means transferring your current number from your service provider.

HOW TO PORT / TRANSFER MY NUMBER

Go to www.globalcallforwarding.com

- 1) Select your country
- 2) Select your number type (toll free, mobile)
- 3) Select your prefix (800, 866 etc.)
- 4) Select Port/Transfer My Number
- 5) Enter the phone number you would like incoming calls to be forwarded to.
- 6) Send an invoice from your current carrier to changes@unitedworldtelecom.com
- 7) Wait for the transfer
- 8) Cancel service with your previous provider

HOW LONG DOES THE PROCESS TAKE?

Generally, number porting takes just 2-3 days. In some circumstances, it may take several months. This will depend on several different factors including:

- The country of your phone number
- The type of number(s) being ported
- Your current provider
- The status of the number

If you have questions about how to port numbers, please call one of our corporate account managers.
